Source Title: Gmina Masłowice

Accessibility Review (Guidelines: **WCAG 2.0 (Level AA)**) Report on known problems (52 found):

1.3 Adaptable: Create content that can be presented in different ways (for example simpler layout) without losing information or structure.

Success Criteria 1.3.1 Info and Relationships (A)

Check 91: select element missing an associated label.

Repair: Add a label element that surrounds the control's label. Set the for attribute on the label element to the same value as the id attribute of the control. And/or add a title attribute to the input element. And/or create a label element that contains the input element.

✖ Line 505, Column 5:

```
<select id="lang-name" class="lang">
<option value="" disabled selected>wybór języka</option ...
```

1.4 Distinguishable: Make it easier for users to see and hear content including separating foreground from background.

Success Criteria 1.4.3 Contrast (Minimum) (AA)

Check 304: The contrast between the colour of selected link text and its background is not sufficient to meet WCAG2.0 Level AA.

Repair: Use a colour contrast evaluator to determine if selected link text and background colours provide a contrast ratio of 4.5:1 for standard text, or 3:1 for larger text. Change colour codes to produce sufficient contrast.
